Funding Partnership

Blue Shield of California Foundation is an Independent Licensee of the Blue Shield Association

Blue Shield of California Foundation is investing in this effort because we believe healthy relationships and mental health go hand-in-hand, particularly for young people; efforts to reduce the stigma of mental health conditions and improve access to services must be prioritized.

The California Endowment believes that a great education is the key to a healthy and successful life. That includes improving our mental health system, so experts can spot young people exhibiting early signs of trouble and get them the help they need.

The foundations that serve our region are committed to supporting the mental health of community residents, especially youth. Sierra Health Foundation is honored to contribute to these important conversations.
