

GIH

PRODUCTS, 2010

Below is a list of 2010 meetings, publications, and audioconferences organized by key issue area to supplement *Ten Years of Work*, released at the 2008 Annual Meeting on Health Philanthropy. All publications listed can be found on the Grantmakers In Health (GIH) Web site, www.gih.org.

ISSUE DIALOGUES AND ISSUE BRIEFS

Issue Dialogues are daylong roundtable meetings focused on a specific health issue. Issue Briefs are published after each Issue Dialogue, integrating a GIH staff-prepared background paper with meeting presentations, discussion, and highlights.

GIH BULLETIN ISSUE FOCUS AND VIEWS FROM THE FIELD ARTICLES

Issue Focus articles are brief analyses of key health and operational issues. Views from the Field articles are written commentaries by health funders. Each appears periodically as an insert in *GIH Bulletin*, the organizational newsletter.

AUDIOCONFERENCES

GIH began offering audioconferences in 2003 to provide Funding Partners timely information on topics of interest and networking opportunities with colleagues.

OTHER MEETINGS

GIH is constantly looking for opportunities to bring grantmakers together around key issues, as well as bringing resources to them to help them with their work. Gatherings held around the country give grantmakers a chance to learn in their own backyards.

This listing of GIH meetings, publications, and audioconferences is organized by key issue area. Meetings or products that cut across issue areas appear only once, but their relevance to other key issues is noted.

ACCESS**ISSUE BRIEFS**

- *Health & Justice: Health Care for People Involved in the Justice System*, March

CHILDREN/YOUTH**GIH BULLETIN ISSUE FOCUS AND VIEWS FROM THE FIELD ARTICLES**

- "Schools as Entry Points for Children's Mental Health Services," January 19 (Mental Health)
