

2017 BEHAVIORAL HEALTH SURVEY

Survey Summary and Funder Directory | **AUGUST 2017**

Acknowledgements

Grantmakers In Health (GIH) thanks each of the Funding Partner organizations that participated in our March 2017 behavioral health survey. Seventy-five organizations agreed to have their self-reported survey responses included in this report. The online survey data has been compiled into a summary infographic and a funder directory. GIH hopes this information will help funders learn and connect to advance behavioral health efforts.

AUTHOR

Alison Perencevich
