

GIH

PRODUCTS, 2012

In 2012 Grantmakers In Health (GIH) offered a diverse range of meetings, publications, and audioconferences, all aimed to advance the field of health philanthropy. Visit www.gih.org for more details about items included in this publication.

ISSUE DIALOGUES AND ISSUE BRIEFS

Issue Dialogues are daylong roundtable meetings focused on a specific health issue. Issue Briefs are published after each Issue Dialogue, integrating a GIH staff-prepared background paper with meeting presentations, discussion, and highlights.

GIH BULLETIN ISSUE FOCUS AND VIEWS FROM THE FIELD ARTICLES

Issue Focus articles are brief analyses of key health and operational issues. Views from the Field articles are written commentaries by health funders. Each appears periodically as an insert in *GIH Bulletin*, the organizational newsletter.

AUDIOCONFERENCES / WEBINARS

GIH began offering audioconferences in 2003 to provide Funding Partners timely information on topics of interest and networking opportunities with colleagues.

STRATEGY SESSIONS AND OTHER MEETINGS

GIH is constantly looking for opportunities to bring grantmakers together around key issues, as well as bringing resources to them to help them with their work. Gatherings held around the country give grantmakers a chance to learn in their own backyards.

NATIONAL MEETINGS

2012 GIH FUNDING PARTNERS

GIH's charge is straightforward yet challenging: serve the field of health philanthropy to improve the health of all people. GIH carries out this mission, thanks in no small part to the ongoing support of our Funding Partners. Our success as a resource to grantmakers depends on their involvement; together, we can create a home for health philanthropy that constantly evolves to meet the changing needs of the field.
