PHYSICIANS DEFENDING MEDICAID

Our Strategies

Building Physician Power for Patient Outcomes:

Organizing and equipping physicians with the tools, platforms, and support needed to advocate effectively for policies that improve patient care and health equity.

Shaping the Narrative:

Amplifying physician voices through media, storytelling, and strategic communications to shape public discourse and influence policymakers on critical health care issues.

Encouraging Civic Participation:

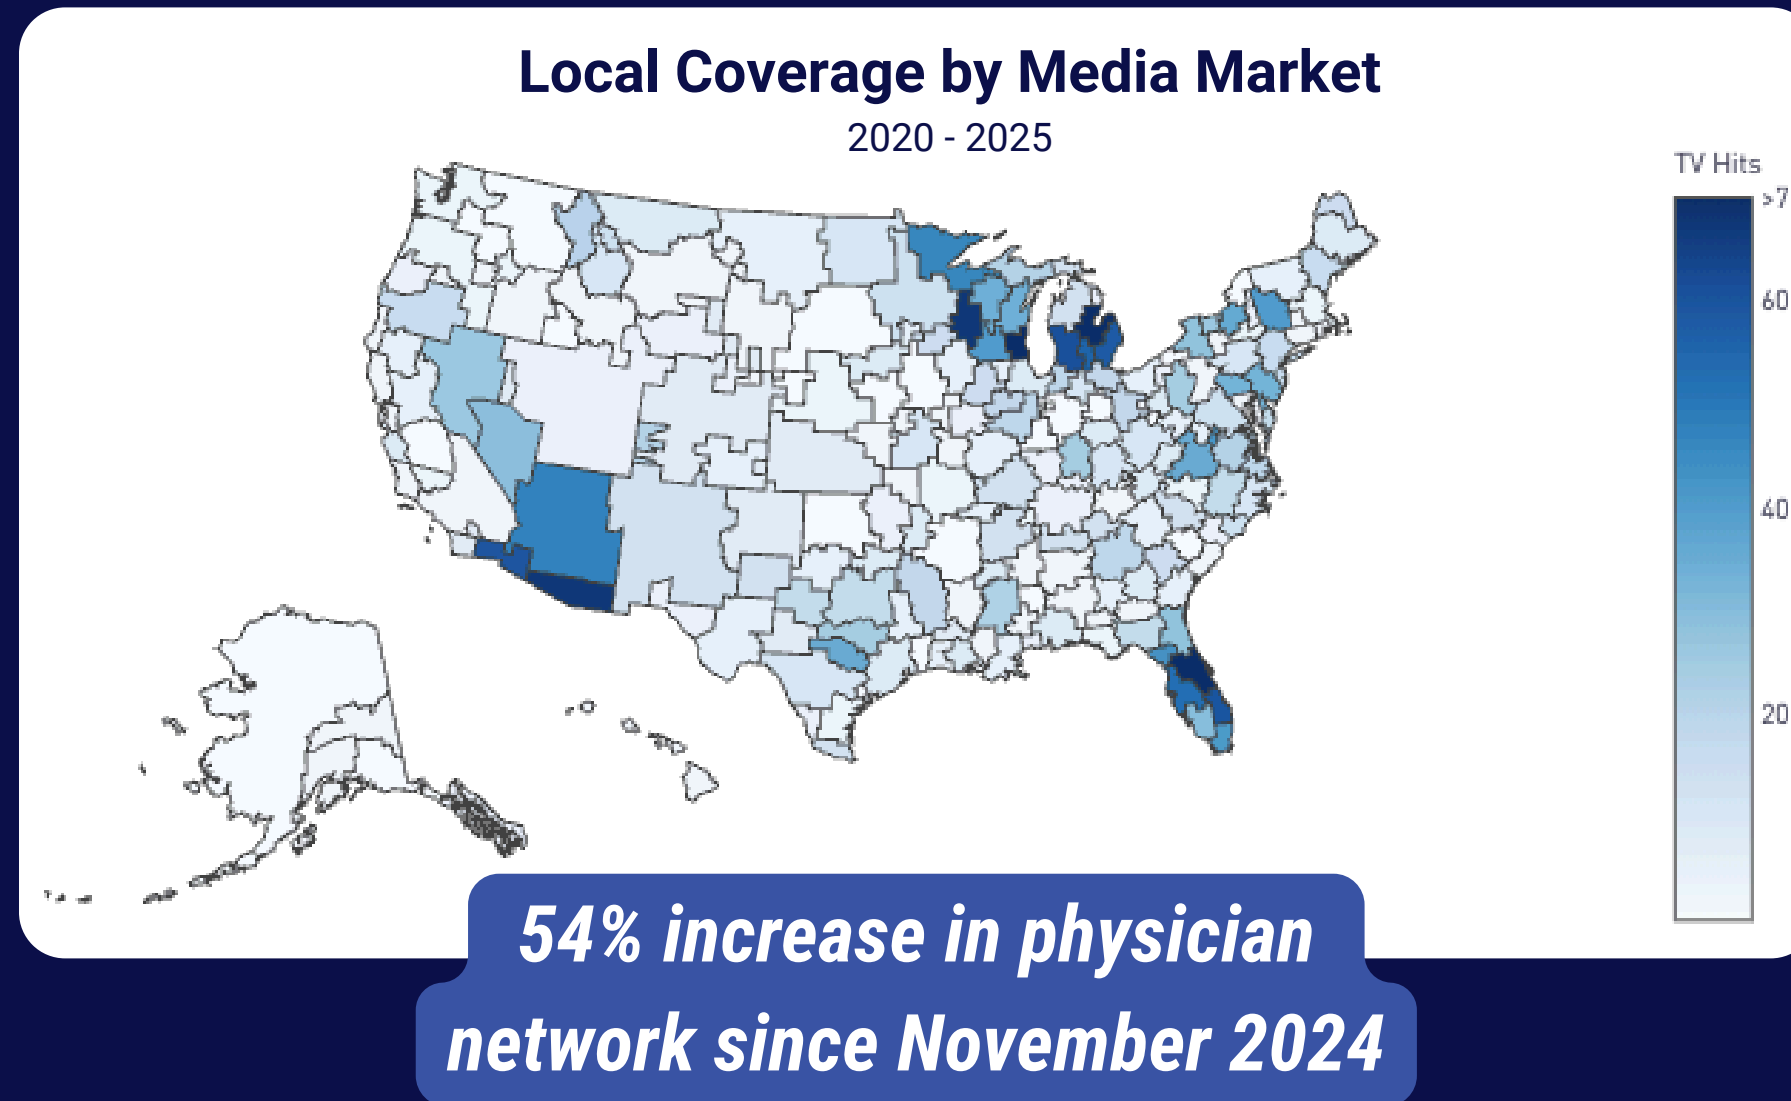

Mobilizing physicians to connect with their communities, engage with policymakers, and participate in grassroots advocacy efforts that protect and expand access to quality health care.
